MARVETHABI CONSULTING ENGINEERS

Technical Excellence. National Infrastructure. Government Confidence.

CORPORATE PRACTICE PROFILE & CAPABILITY STATEMENT

Document Ref: MT-PR-2026-V1 | Level 1 B-BBEE (135% Recognition) | 100% Black-Owned

1. EXECUTIVE SUMMARY & COMPANY BACKGROUND

MarveThabi Consulting Engineers (Pty) Ltd is a multidisciplinary South African engineering consultancy delivering specialist Reliability Engineering, Asset Management, Electrical Engineering, and Geo-Environmental solutions across the public, municipal, mining, energy, and heavy industrial sectors.

As a verified Level 1 B-BBEE contributor with 100% black ownership, the firm unites technical rigor with genuine economic transformation. With over 13 years of operational track record and more than 100 successfully completed infrastructure projects, MarveThabi provides public entities and industrial leaders with standards-compliant, audit-ready engineering execution.

PRACTICE STANDING & STATUTORY REGISTRATIONS

- Engineering Council of South Africa (ECSA): Corporate Directed Registration
- South African Council for Natural Scientific Professions (SACNASP): Certified Pr.Sci.Nat Practice
- Broad-Based Black Economic Empowerment: Level 1 Contributor (135% Procurement Recognition)
- Central Supplier Database (CSD): Active Government Supplier (MAAA0086884)
- Asset Standards Alignment: ISO 55000 / PAS 55 / SANS 10142 Electrical Safety

2. CORE ENGINEERING & ENVIRONMENTAL DISCIPLINES

RE-01 · Reliability Engineering & Condition Monitoring

Vibration analysis, thermal imaging baseline profiling, oil tribology & DGA, Root Cause Failure Analysis (RCFA), FMECA modeling, and predictive maintenance programs across heavy mining and manufacturing assets.

AM-02 · Asset Management & ISO 55000 Systems

Strategic Asset Management Plans (SAMP), GRAP 17 municipal asset registers, barcoding & RFID physical asset verifications, digital twin data architectures, and lifecycle replacement forecasting.

EE-03 · Electrical Engineering & Power Systems

HV/MV/LV substation design, 132kV/88kV transmission & 11kV reticulation, transformer commissioning, relay protection schemes, backup diesel generators, ATS synchronization, and solar PV integration.

GE-04 · Geo-Environmental Management & Hydrology

Environmental Impact Assessments (EIA), Water Use License Applications (WULA/DWS), hydrogeological borehole drilling & aquifer pump testing, mine rehabilitation, waste licensing, and environmental audits.

3. PRACTICE DIRECTORS & TECHNICAL LEADERSHIP

Marvelous Ngoatle

Managing Director · Principal Engineering Technologist

Pr.Tech.Eng (ECSA) | B.Tech Electrical Engineering | Cert. Reliability Engineer

Over 13 years of engineering practice specializing in Reliability Engineering, HV/MV electrical distribution, substation commissioning, condition monitoring programmes, and ISO 55000 asset management roadmaps across mining, energy, and municipal sectors.

Thabang Ngoatle

Director · Head of Environmental & Water Resource Management

Pr.Sci.Nat (SACNASP) | B.Sc Honours Environmental Science & Hydrology

Leading environmental scientist with extensive experience guiding EIA authorisations, Section 21 Water Use Licensing (WULA), mine closure planning, groundwater reserve testing, and statutory compliance monitoring for industrial developments.

4. REPRESENTATIVE CLIENTS & CRITICAL INFRASTRUCTURE PARTNERS

MarveThabi has delivered high-stakes engineering projects across South Africa and the wider region for leaders including:

*** Glencore Operations South Africa**
*** Anglo American Mining Infrastructure**
*** Harmony Gold Mining Company**
*** Valterra Industrial & Energy Partners**
*** City of Ekurhuleni Metropolitan Municipality**
*** Umgeni-uThukela Water Board**
*** Thungela Resources**
*** Municipal Distributary Networks across Gauteng & Limpopo**

5. PROJECT DELIVERY LIFECYCLE (STAGE-GATE METHODOLOGY)

> Phase 01: Consultation & Terms of Reference Scoping (Statutory Matrix Mapping)
> Phase 02: Empirical Investigation & Baseline Diagnostics (GPR, Oil, Power Quality)
> Phase 03: Engineering Design & Certified CAD Drafting (AutoCAD, BIM, Relay Modeling)
> Phase 04: Implementation & Resident Engineering Supervision (FAT/SAT & Build Audits)
> Phase 05: Quality Assurance, Pre-Commissioning & Statutory Sign-off (Electrical COCs)
> Phase 06: Long-Term Predictive Asset Support & Telemetry Monitoring (ISO 55000 Cycles)
